Die afsonderlike en gekonsolideerde finansiële state is geauditeer deur die onafhanklike ouditeure, PricewaterhouseCoopers Geïnkorporeer, wat onbeperkte toegang gegee is tot alle finansiële rekords en verwante data, met inbegrip van notules van alle Lede-, Direksie- en Direksiekomiteevergaderings. SENTRAL-SUID KOÖPERASIE BPK en sy filiale FINANSIELE BESTUURSOORSIG 2018

AGTERGROND

Die 2018 finansiële jaar was interessant in baie opsigte. Beide oud-presidente Robert Mugabe en Jacob Zuma is deur hul eie politieke partye herroep as presidente van onderskeidelik Zimbabwe en Suid-Afrika. Die VSA, onder leiding van President Donald Trump, trap op vele internasionale tone en tree uit beide die Parys Klimaatsooreenkoms asook die Iran Kern-ontwapeningsooreenkoms. Die EU en Verenigde Koningryk se skeisaak is onderweg, met elke party wat baklei vir sy eie gewin. Versagtende verhoudings blyk ten tyde van hierdie skrywe tussen Noord- en Suid-Korea, sowel as tussen Noord-Korea en die VSA te realiseer. Die humanitäre krisis in die Midde-Ooste blyk steeds voort te duur, met veral Sirië waar lewensverlies en onderdrukking steeds voortduur. Goeie nuus is sekerlik nou broodnodig en 'n ingeligte wêreldbevolking raak voortdurend gefrustreerd met politici se onvermoë om flink op te tree om geregtigheid en regverdigheid te laat geskied. Veral die VSA se omstreden uitleatings het beleggers se aptyt vir beleggings in die VSA gedemp, met 'n gevvolglike verswakking van die Amerikaanse Dollar. Ontwikkelende lande het natuurlik hierdeur voordeel getrek, met beleggers wat kapitaal weg vanaf die VSA gekanaliseer het om hul konsentrasie risiko t.o.v. hul Dollar blootstelling te verminder. Dit het in die algemeen geleid tot die versterking van ontwikkelende lande se geldeenheid en ekonomiese.

Die verstewiging van harde kommoditeitspryse het bietjie momentum verloor, maar prysie het grotendeels nie verswak nie. Die Suid-Afrikaanse mynbedryf gaan steeds gebuk onder regulatoriese onsekerhede en arbeidskwessies met die gevolg dat hulle nie werklik kon kapitaliseer op die marginaal beter prysie en vraag nie. Die aanstelling van Cyril Ramaphosa as President van Suid-Afrika is alom verwelkom en die versterking van die Rand sedert sy aanstelling is tekenend van die beleggers se opinie oor sy vermoë om die land te herenig, korupsie hok te slaan en die ekonomie weer op dreef te kan kry.

Alhoewel die Rand effens teruggesak het van sy sterkstevlak teenoor die Amerikaanse Dollar in die laaste jaar, verhandel dit ten tyde van hierdie skrywe (Junie 2018) steeds teen R13.40 teenoor die Dollar. Die versterkte Rand het geleid tot verlagings in die prys van invoere en dit is tasbaar ervaar deur landbouers deurdat masjinerie prysie gedaal het. Ongelukkig het die produsente wat landbou kommoditeite uitvoer in meeste gevalle wesenlike dalings in hul onderskeie gerealiseerde prysvlakke ervaar, met gevvolglike negatiewe druk op hul winsgewendheid. Die ANC se hernieuwe uitsprake oor die onteiening van grond sonder vergoeding, het tot gevolg dat landbouers en ander besighede in die landbouwaardeketting huiwerig is om grootskaalse kapitale investering aan te gaan. Die verhandeling van landbougrond is ook negatief hierdeur geïmpakteer.

Die klimaatstoestande wat ervaar is het verligting gebring vir groot dele van die land, alhoewel dele van die binneland en veral die Wes-Kaap steeds deurloop onder erge droogtetoestande. Die winterreënseisoen het goed afgeskop vir die Wes-Kaap, met veral besproeiingsboere wat hoop op verbeterde damvlakke vir die komende somer. Groot mielie-oeste volg op die vorige jaar se rekord-

oeste, maar prys bly steeds onder druk. Die Suid- en Oos-Kaap is soos in 2017 steeds droog, met lae watervlakte wat die vrugte-, groente- en melkboere tot groot kommer strek. Gesaaides is reeds onder druk met lae reënval wat nie volgens die behoefté realiseer nie.

Vooruitsigte dui tans op lae, maar stabiele plaaslike koring- en garspryse. Enige moontlike verhoging in landbou-kommoditeitspryse, sal grootliks teengewerk word deur die verlaging in die koring-invoertarief op die rug van die versterkte Rand. Vooruitsigte vir van die ander landbousektore is as volg:

- Die suiwelbedryf het 'n bestendige jaar beleef, met deurlopende lae voerpryse en 'n aanvaarbare melkprys. Die watertekort het egter weidings onder druk geplaas.
- Die vrugte- en wynbedrywe het laer oeste ervaar, veral gegewe die watertekort wat geleï het tot beskermende boerderypraktyke, met gevvolglike laer opbrengste. Uitvoerpryse van vrugte, gegewe die wisselkoers, was laer as verwag. Die prys vir wyndruwe toon egter belowende verbetering.
- Die volstruisbedryf het 'n rampspoedige jaar beleef met uitvoere van vleis wat weer gestaak is a.g.v. nuwe aanmeldings van voëlgriep. Laer voerpryse bring egter steeds verligting, maar is nie genoeg om die uittog van deelnemers aan hierdie mark te stuit nie. Die beplande samesmelting tussen Klein Karoo Internasional en Mosstrich is kommerwekkend vir boere t.o.v. prys op die korttermyn, maar sal moontlik die volhoubaarheid van die bedryf as geheel verbeter.
- Vleispryse het die jaar effens teruggesak, namate verbruikers weerstand gebied het teen veral die hoë skaapvleispryse. Die listeriouse-skandaal wat sekere voedselverwerkers getref het, het tot massiewe afnames in die vraag na varkvleis geleï, met gevvolglike wesentlike prysverlagings.
- Die wol- en bokhaarbedryf doen steeds goed, selfs inaggenome die versterking van die Rand.
- Die groentebedryf het ook 'n tydperk van goeie prys ervaar ten opsigte van meeste kontantgewasse.

SSK as Koöperasie het 'n goeie finansiële jaar gehad, behalwe vir die waardedaling in die Pioneer Foods Groep aandeelhouding. Die Groep het 'n egter 'n gemiddelde finansiële jaar gehad met SOILL wat wesentlike merk-tot-mark voorraadwaardasie-aanpassings moes voorsien op jaareinde, sowel as Walts Malting en Procurop Grain wat operasionele verliese gerealiseer het. Alhoewel die finansiële prestasie onder druk verkeer het, is die finansiële stand steeds uiters gesond. Die bedryfsafdelings het weereens goeie resultate gerealiseer. Die Graan-, Saad-, Versekerings-, Veevoervervaardigers en Handelsafdelings was almal winsgewend, met slegs die Meganisasie-afdeling wat in die huidige jaar 'n verlies gerealiseer het.

Die inskakeling van Tuinroete Agri se bedrywigheede by SSK vanaf 1 Maart 2017 het tot gevolg gehad dat die 2018 finansiële jaar die eerste is waartydens die volle landbou-inset- en diens-verskaffingsbesighede van hierdie besighede tesame getoon word binne SSK. Ledetalle groei steeds

voortdurend, met veral landbouers van die Tuinroete, Karoo en Oos-Kaap gebiede wat die voordele van lidmaatskap vir die eerste keer nastreef. Sedert 1 Maart 2017 het die rekenkundige hantering van direkte verkope waar die hantering deur SSK nie noodwendig plaasvind nie, ons daar toe genoeg om voortaan slegs die bruto wins gerealiseer op hierdie transaksies, as omset te toon. Hierdie verandering het slegs SSK en die Groep se omset en koste van verkope syfers afwaarts aangepas, met geen effek op bruto wins nie.

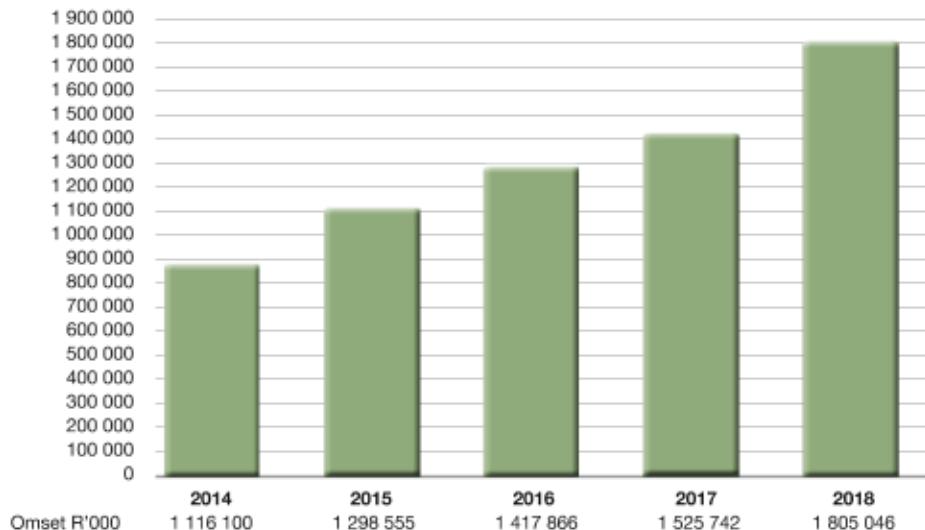

Die filiale, gesamentlike onderneming en geassosieerde het goed presteer en die enigste wat nie winsgewend was nie, was soos verwag, Walts Malting en Proculo Grain. SSK het in die jaar onder oorsig sy belang in SOILL verlaag tot 60% na afloop van die suksesvolle uitreiking van aandele deur SOILL aan kwalifiserende voorheen-benadeelde aandeelhouers. Op 1 November 2017 het SSK ook 'n 100% belang in Walts Malting bekom. Die fokusareas vir die eerste paar maande was die voltooiing van die aanleg, die formulering van die moutresepte, die bemarking van die produkreeks, asook die stabilisering van werksaamhede.

Gegewe die rampsspoedige droogte ervar gedurende die 2018 finansiële jaar, is die syfers behaal prysenswaardig. Onder moeilike omstandighede vir beide SSK se Lede en die organisasie, kon bevredigende resultate behaal word, terwyl die finansiële stand van die onderneming beskerm is. Die werk verrig by waardetoevoegende filiale om hierdie entiteite te verbeter het sekerlik 'n groot impak op SSK, die Direksie, Bestuur en Personeel gehad, maar wesenlike toekomstige voordele word voorspel om hieruit te realiseer. Dit maak die resultate behaal in 2018 soveel meer bevredigend. SSK se Lede, Direksie, Bestuur en Personeel het hard saamgewerk om hierdie uitsonderlike resultate moontlik te maak. **Werk saam, wen saam**. SSK se Direksie, Bestuur en Personeel bly toegewydt tot die ondersteuning van ons Lede en hul onderskeie boerderye en is dankbaar vir die ondersteuning wat ons Lede ons bied. Ons bly nederig dankbaar aan ons Hemelse Vader vir al die seëninge wat ons onverdienstelik uit Sy hande ontvang het.

TOTALE OMSET

Die totale omset met Lede en klante het toegeneem vanaf R1 525 742 460 in die 2017 finansiële jaar tot R1 805 046 140 in die 2018 finansiële jaar – 'n toename van meer as 18%. Die toename is inlyn met inflasionêre prysaanpassings, die insluiting van Tuinroete Agri se bedrywighede by SSK, asook die impak van die rekenkundige hantering van direkte transaksies waar voortaan slegs die bruto wins gerealiseer as omset getoon mag word.

TOTALE OMSET

Die Koöperasie se bedrywigheide het 'n netto inkomste voor belasting vir die jaar van R68 797 443 (2017 – R69 751 494) tot gevolg gehad. Ingelus in hierdie syfers is 'n dividend van R28 000 000 van Tuinroete Agri vir beide finansiële jare, asook 'n eenmalige dividend vanaf SSK Vervaardigers ten bedrae van R10 098 350 in die huidige jaar as deel van die proses om die onderneming te ontbind.

Inkomstebelasting beloop R4 724 300 (2017 – R2 865 764) en die afname in die voorsiening vir uitgestelde belasting beloop R1 506 146 (2017 – R2 978 697 toename). Die netto inkomste na belasting, maar voor bonusse, beloop dus R87 579 289 (2017 – R83 907 033). Die surplus word as volg verdeel:

TOTALE UITGAWES

Totale uitgawes (administratiewe- en bedryfsuitgawes) het in die jaar onder oorsig gestyg met 60.1%, grootliks te danke aan die inskakeling van Tuinroete Agri se bedrywighede by SSK. Dit bemoeilik die vergelyking van die twee jaar se syfers met mekaar in SSK se finansiële state, maar is inlyn met die begrote syfers. Verhoogde koste verbonden aan herstelwerk, bedryfshure, skoonmaakkoste, elektrisiteit, rekenaar uitgawes, voertuigkostes, waardevermindering en personeelkostes het ook tot die styging bygedra.

DEBITURE

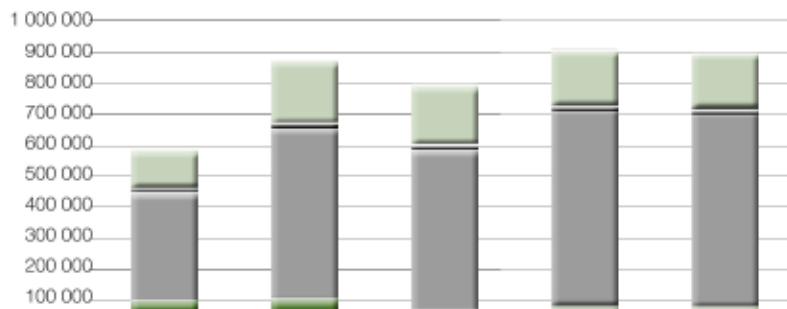

Oorlaatskuld het aansienlik toegeneem tot R205 289 534 (2017 – R95 332 366). Die toename is toeskryfbaar aan die natuurtoestande wat deur die breër bedieningsgebied geheers het gedurende die periode. Die wydverspreide droogte het druk geplaas op alle landbouprodukte se opbrengste. Daar is vanjaar debiteure ten bedrae van R132 648 (2017 – R11 879) afgeskryf as oninbaar. Die totale voorsiening vir twyfelagtige skulde was op jaareinde R2 324 246 (2017 – R1 285 251). Hierdie uitstekende syfers is noemenswaardig gegewe die omvang van die debiteureboek.

GRAAN

Graan aanplantings in die 2017/18 finansiële jaar het vir die eerste keer in vier jaar afgeneem.

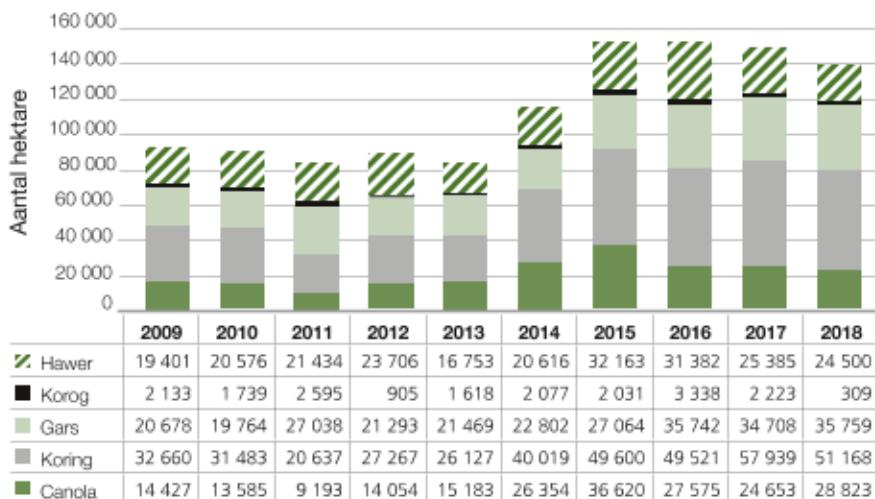

Min reën en gevolglike ongunstige planttoestande oor 'n groot deel van die bedieningsgebied was waarskynlik die grootste enkele rede daarvoor.

Verdere reënval en reënval-verspreiding het ook nie gunstig gerealiseer nie en slegs sekere gebiede rondom Swellendam en Karringmelksrivier het aanvaarbare oeste gehad. Graan- en kanola-opbrengste inveral die oostelike deel van die SSK-streek was van die laagste in baie seisoene.

Gegewe die droë jaar was daar tog relatief min kwaliteitsprobleme.

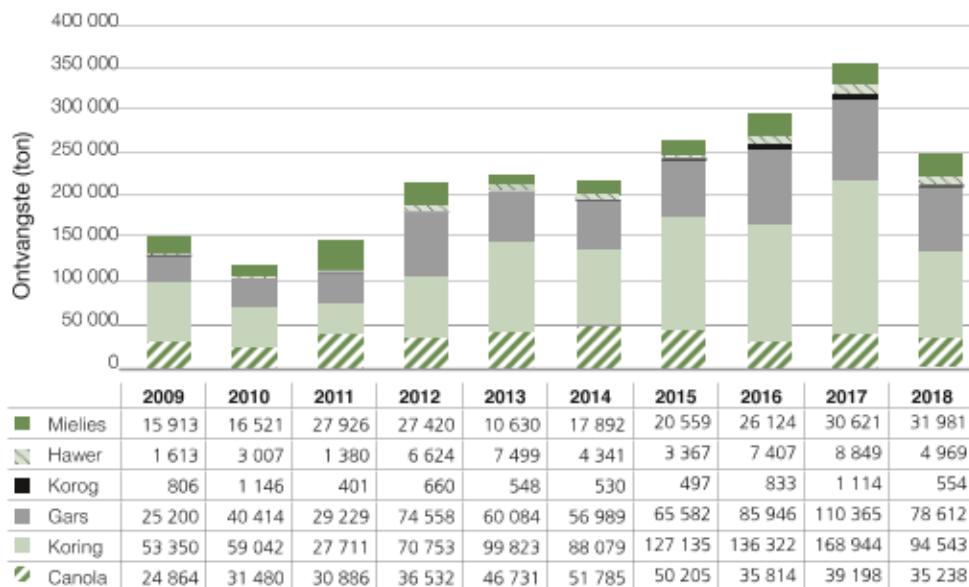

HEKTARE GEPLANT

Hektare in SSK bedieningsgebied geplant (vanaf 2015 word Riversdal, Albertinia en Herold ingesluit).

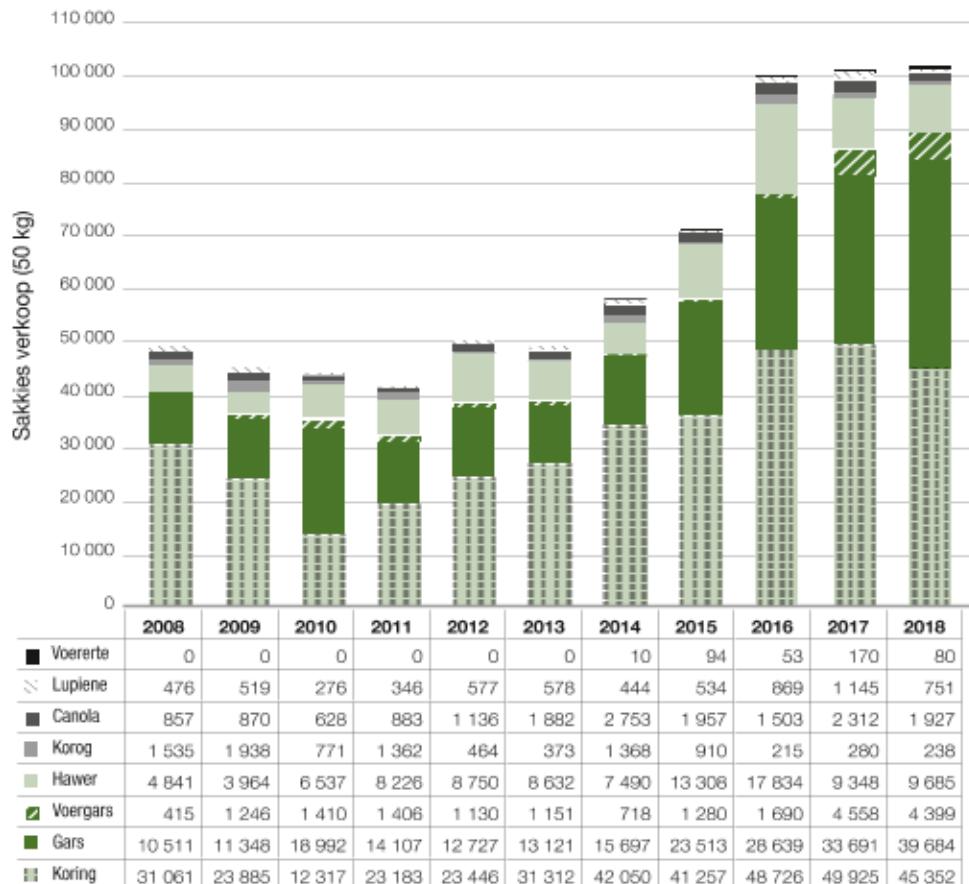

GRAANONTVANGSTES

Graanontvangstes in SSK silo's (vanaf 2015 word Riversdal, Albertinia en Herold ingesluit).

Graanlewering was van so 'n omvang dat SSK se opbergingsfasiliteite swak benut was. Slegs Swellendam en Karrigmelksrivier silo's se lewering was naby aan die benutbare kapasiteit.

SAAD SAADVERKOPE

SSK se saadverkope gaan van krag tot krag. Kompetenterende pryse, beskikbaarheid van kultivars en goeie kwaliteit saad verseker ondersteuning van kliënte oor 'n wye front en 'n beduidende deel van die afdeling se omset word van buite SSK se normale bedieningsgebied gerealiseer.

TOEKOMSBLIK

Die Buro vir Voedsel en Landboubeleid (BFAP) se vooruitsig vir 2017 – 2026 is dat die landbousektor se ongekende groei van die afgelope twee dekades verby is. BFAP voorspel 'n konsolidasiefase wat die werklike vlak van die sektor se mededingendheid en volhoubaarheid op die wêreldverhoog deeglik gaan toets.

SSK se Lede het 'n moeilike landboujaar beleef weens die droogte en swak kommoditeitspryse wat groot druk plaas op hul kontantvloeи en skuldposisies. Met al die politieke onsekerhede wat die Suid-Afrikaanse landbou in die gesig staar en meer spesifiek die kwessie rakende grondontteiening, is dit sekerlik nie 'n maklike besluit om deurlopend op 'n omvangryke basis kapitaal in hierdie sektor te belê nie. Dit is egter net so gevaarlik om dit nie te doen nie. Die realiteit is dat eienaarskap van grond nie welvaart skep nie. Welvaart word eers geskep as die grond produktief aangewend word. Die produktiewe aanwending van grond en die Regering se ondersteuning in dié verband sal voedselsekerheid verseker wat bepalend is vir die toekoms van ons land.

Nader aan ons eie besigheid. SSK se ledegetalle neem voortdurend toe. Bestuur en Personeel is gepositioneer om hierdie Lede volwaardig te diens. SSK is verder goed gekapitaliseer om toekomstige geleenthede te benut. Verdere kapitale uitbreidings gaan inlyn moet wees met die oorhoofse strategie van SSK om ons fokus te hou op die behoeftes van ons Lede. 'n Verdere fokuspunt van SSK is om ons Lede se skuldposisies wat ontstaan het a.g.v. die droogtetoestande, saam te bestuur.

SSK se betrokkenheid by sy twaalf filiale en geassosieerde maatskappye is die gevolg van 'n voortgesette ingesteldheid om besigheid in die streeksgebaseerde landbouwaardeketting op te rig.

Die kompeterende omgewing waarin SSK sake doen, vereis deurlopende vernuwing en uitbreiding om aan ons Lede en kliënte se behoeftes te voldoen. Goeie beplanning en die nodige risikobestuur soos ons Lede dit al in die verlede gedoen het, sal 'n vereiste wees vir die komende jaar om sukses te verseker. Die vraag word dikwels gevra: Is daar 'n toekoms vir kommersiële landbou in ons land? Die antwoord is: JA! Besteding aan voedsel sal altyd 'n belangrike deel van die ekonomie bly. Die mark vir landbouprodukteoorheers verbruikersbesteding. Landbou gaan beslis nie verdwyn nie.

SSK se Direksie en Bestuur is steeds oortuig dat die koöperatiewe model die mees relevante besigheidsvorm is om langtermyn-volhoubaarheid in die landbou te verseker.

SSK se Bestuur, Personeel en Direksie sien met vertroue uit na die komende jaar en erken met groot nederigheid ons afhanklikheid teenoor ons Hemelse Vader.

FINANCIAL MANAGEMENT REVIEW 2018

BACKGROUND

The 2018 financial year was interesting in many respects. Both former presidents Robert Mugabe and Jacob Zuma were recalled by their own political parties as presidents of Zimbabwe and South Africa, respectively. The US, under the leadership of President Donald Trump, is treading on many international toes, especially after exiting both the Paris Climate Agreement and the Iran Nuclear Disarmament Agreement. The divorce proceedings of the EU and United Kingdom are underway, with each party fighting for its own gain. Softening relations appear to be manifesting at the time of writing between North and South Korea, as well as between North Korea and the USA. The humanitarian crisis in the Middle East is ongoing, especially in Syria where large-scale loss of life and repression continue. Good news is certainly much needed and an informed world population is constantly being frustrated by the inability of politicians to act firmly and swiftly to ensure justice and righteousness is upheld. The USA's controversial statements, in particular, damped investors' appetite for investments in the USA, with a consequent weakening of the US Dollar. Developing countries have naturally benefited from this, with investors channelling capital away from the US to reduce their concentration risk of their Dollar exposure. This generally led to the strengthening of developing countries' currencies and economies.

The strengthening of hard commodity prices has lost some momentum, but prices have to a large extent not weakened. The South African mining industry is still buckling under regulatory uncertainties and labour issues, with the result that they could not really capitalise on marginally better prices and increased demand. The appointment of Cyril Ramaphosa as President of South Africa has been widely welcomed, and the strengthening of the Rand since his appointment was indicative of investors' views on his ability to reunite the country, to fight corruption and to put the economy back on track.

Although the Rand has fallen slightly from its strongest point against the US Dollar in the last year, it traded at R13.40 against the Dollar at the time of writing (June 2018). The strengthened Rand has led to price reductions in imports, which has been experienced first-hand by farmers with the reduction in the price of machinery. Unfortunately, the producers who export agricultural commodities experienced significant declines in most cases in their respective realised price levels for these products, with a consequential negative impact on their profitability. The ANC's renewed pronouncements on the expropriation of land without compensation have resulted in farmers and other businesses in the agricultural value chain being reluctant to engage in large-scale capital investing. The sales of agricultural land were also negatively impacted by this.

The climatic conditions experienced have provided much needed relief for large parts of the country, although parts of the interior and especially the Western Cape are still experiencing severe drought conditions. The winter rainy season has kicked off well for the Western Cape, especially irrigation farmers who hope for improved dam levels for the coming summer. Large maize crops are following the record crops of last year, but prices remain under pressure. The Southern and Eastern Cape

are still dry, as in 2017, with low water levels which is very concerning for the fruit, vegetable and milk farmers. The planted grains are already under pressure with low rainfall which has not realised according to need.

Forecasts currently indicate low, but stable local wheat and barley prices. Any possible increases in agricultural commodity prices will be largely counteracted by the reduction in the wheat import tariff on the back of the strengthened Rand. Prospects for other agricultural sectors are as follows:

- The dairy industry has experienced a steady year, with continuous low feed prices and an acceptable milk price. However, the water shortage has put pressure on pastures.
- The fruit and wine industries experienced lower crops, especially given the water shortage that led to protective farming practices being followed, resulting in lower yields. Export prices of fruit, given the exchange rate, were lower than expected. However, the price for wine grapes shows promising improvement.
- The ostrich industry experienced a disastrous year with meat exports that were halted due to new reported cases of avian flu. Lower feed prices however, have provided some relief, but are not enough to stop the exodus of participants in this market. The planned merger between Klein Karoo International and Mosstrich is worrying for farmers for the sake of prices in the short term, but may improve the sustainability of the industry as a whole.
- Meat prices dropped slightly during the year as consumers were providing resistance to especially high sheep meat prices. The listeriosis scandal experienced by certain food processors led to massive decreases in the demand for pork, resulting in substantial price reductions.
- The wool and goat industry continues to perform well, even considering the strengthening of the Rand.
- The vegetable industry also experienced a period of good prices in terms of most cash crops.

SSK as co-operative had a good financial year, except for the mark-to-market impairment in the Pioneer Foods Group shareholding. However, the Group had an average financial year with SOILL which had to provide significant mark-to-market stock valuation adjustments at year-end, as well as Walts Malting and Procuro Grain, with both realising operational losses. Although financial performance was under pressure, the financial position continues to be extremely well-balanced. The business divisions again delivered good results. The Grain, Seed, Insurance, Feed Manufacturers and Retail Divisions were all profitable, with only the Mechanisation Division realising a loss in the current year.

The integration of Tuinroete Agri's operations into SSK from 1 March 2017 resulted in the 2018 financial year being the first to show the full agricultural input and services businesses of the combined businesses under one roof. Membership numbers continue to grow, especially with farmers from the Garden Route, Karoo and Eastern Cape seeking the benefits of membership. Since 1 March 2017, the accounting treatment of direct sales (where SSK does not carry an item in stock) has been changed to show only the gross profit realised on these transactions as revenue. This change only

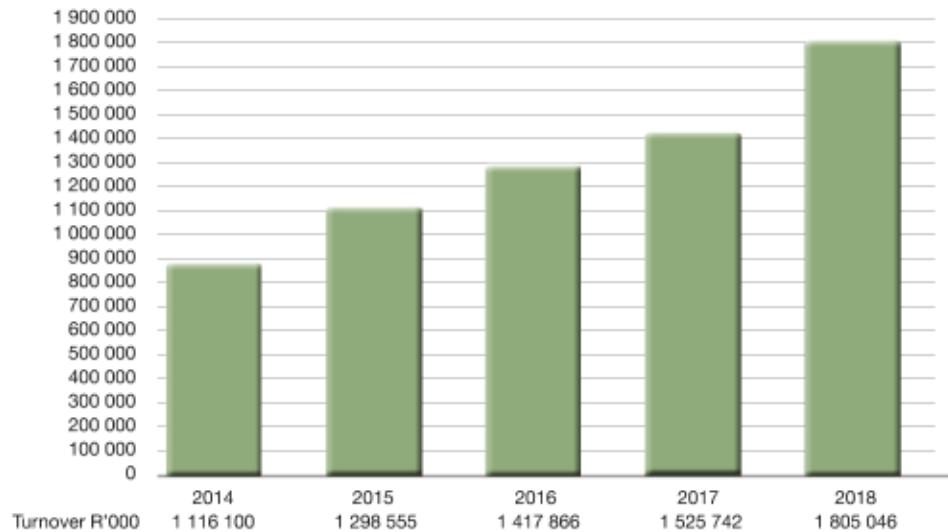

reduced SSK's and the Group's turnover and cost of sales figures, with no effect on gross profit.

The subsidiaries, joint venture and associates performed well and with only Walts Malting and Procurop Grain posting losses. In the year under review, SSK shareholding in SOILL reduced to 60% after the successful completion of a sale of SOILL shares to qualifying previously disadvantaged shareholders. On 1 November 2017, SSK also acquired a 100% stake in Walts Malting. The focus areas for the first few months were the completion of the plant, the formulation of the malt recipes, the marketing of the product range, as well as the stabilisation of operations.

Given the disastrous drought experienced during the 2018 financial year, the financial performance has been refreshing. Under difficult conditions for both Members of SSK as well as the organisation, satisfactory results were achieved while the financial position of the company was protected. The work done at each of the value-adding subsidiaries to improve these entities, certainly had a major impact on SSK, the Board, Management and Staff, but significant future benefits are expected to follow from this. This makes the results achieved in 2018 so much more satisfying. SSK's Members, Board, Management and Staff have worked hard to make these exceptional results possible. **Work together, win together.** SSK's Board of Directors, Management and Staff remain dedicated in their support of our Members and their respective farming operations and are grateful for the loyal support of our Members. We humbly remain grateful to our Heavenly Father for all the blessings we have received so undeservedly from His hands.

TOTAL TURNOVER

The total turnover with members and customers increased from R 1 525 742 460 in the 2017 financial year to R 1 805 046 140 in the 2018 financial year. This represents an increase of approximately 18%. The increase is in line with inflationary price adjustments, the inclusion of Tuinroete Agri's operations within SSK as well as the impact of the change in accounting treatment regarding direct sales, where only the gross profit realised will be included in the turnover in future.

TOTAL TURNOVER

NET INCOME / APPROPRIATION OF SURPLUS

The Co-operative's operations resulted in a net income before tax for the year of R68 797 443 (2017 – R69 751 494). Included in this figure is a dividend of R28 000 000 from Tuinroete Agri in both of the financial years, as well as once-off dividend of R10 098 350 from SSK Vervaardigers in the current year as part of the process to unwind the business.

Income tax amounted to R4 724 300 (2017: R2 865 764) and the decrease in deferred tax provision amounts to R1 506 146 (2017: R2 978 697 increase). The net income after tax, but before member bonuses, amounted to R87 579 289 (2017: R85 907 033). The surplus is divided as follows:

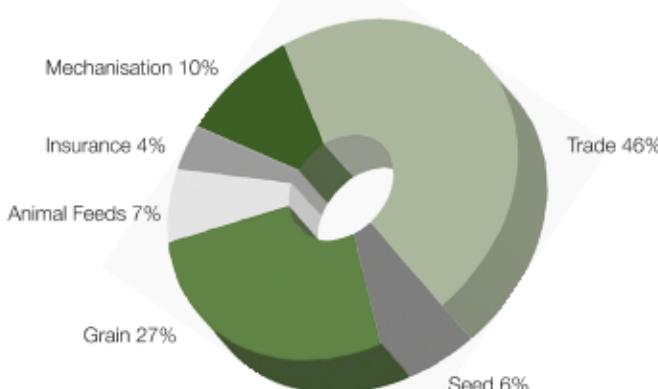

Member bonuses	R22 000 000
Cash	R4 400 000
Deferred	R17 600 000

TOTAL EXPENDITURE

Total expenditure has increased by 60.1% in the year under review, mainly due to the incorporation of Tuinroete Agri's operations within SSK. Increased costs involved in repair and maintenance, cleaning costs, electricity, operating leases, vehicle expenses, computer expenses, depreciation and personnel costs. The only expense experiencing a substantial decrease, was fuel for grain driers.

DEBTORS

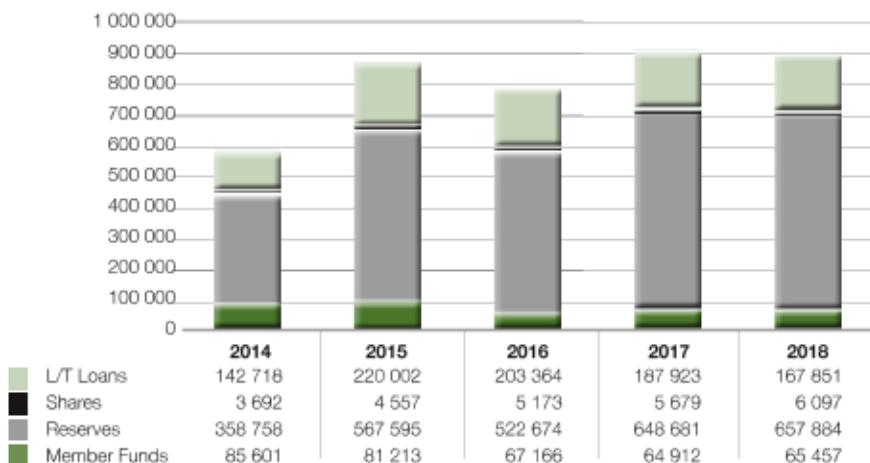

Carry-over debt increased significantly to R205 289 534 (2017 – R95 332 366). The increase is attributable to the climatic conditions prevalent throughout the greater service area during the year under review. The widespread drought has put pressure on all agricultural products' yields. Debtors amounting to R132 648 (2017 – R11 879) have been written off as irrecoverable. The total provision for doubtful debts was R2 324 246 (2017 – R1 285 251) at year-end. These excellent figures are significant given the size of the debtors' book.

GRAIN

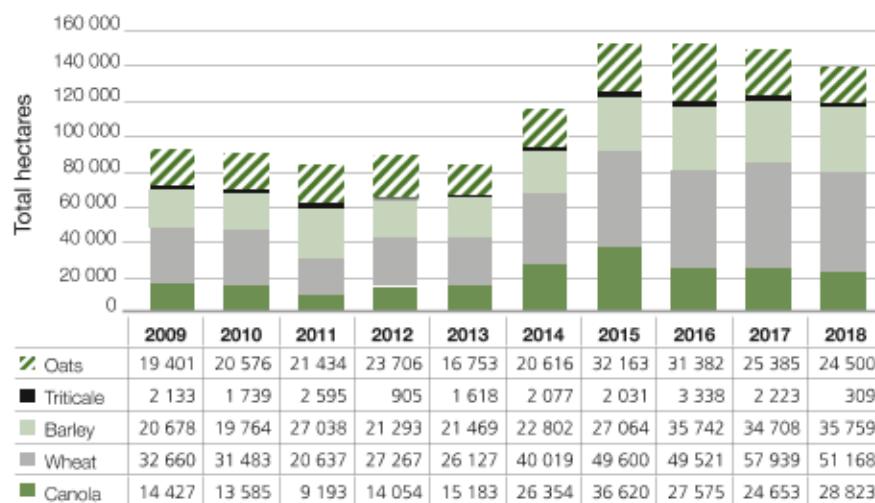

The total area of grain planted in the service area during the 2017/18 financial year decreased for the first time in four years.

Limited rain and the consequential adverse planting conditions over a large part of the service area were probably the biggest single reason for this. The rainfall and rainfall distribution during the remainder of the growth season were not favourable to good yields and only certain areas around Swellendam and Karringmelks River realised acceptable crops. Wheat and canola yields in the eastern part of the service area were among the lowest in many seasons.

Surprisingly there were relatively few quality problems, given the dry year.

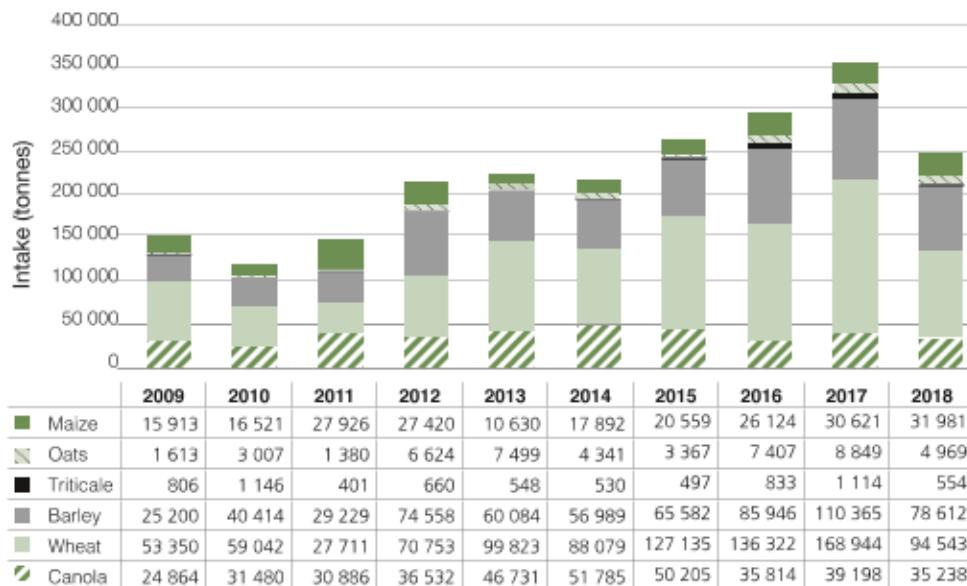

HECTARES PLANTED

Hectares sowed/planted in SSK's service area (since 2015 Riversdale, Albertinia and Herold are included).

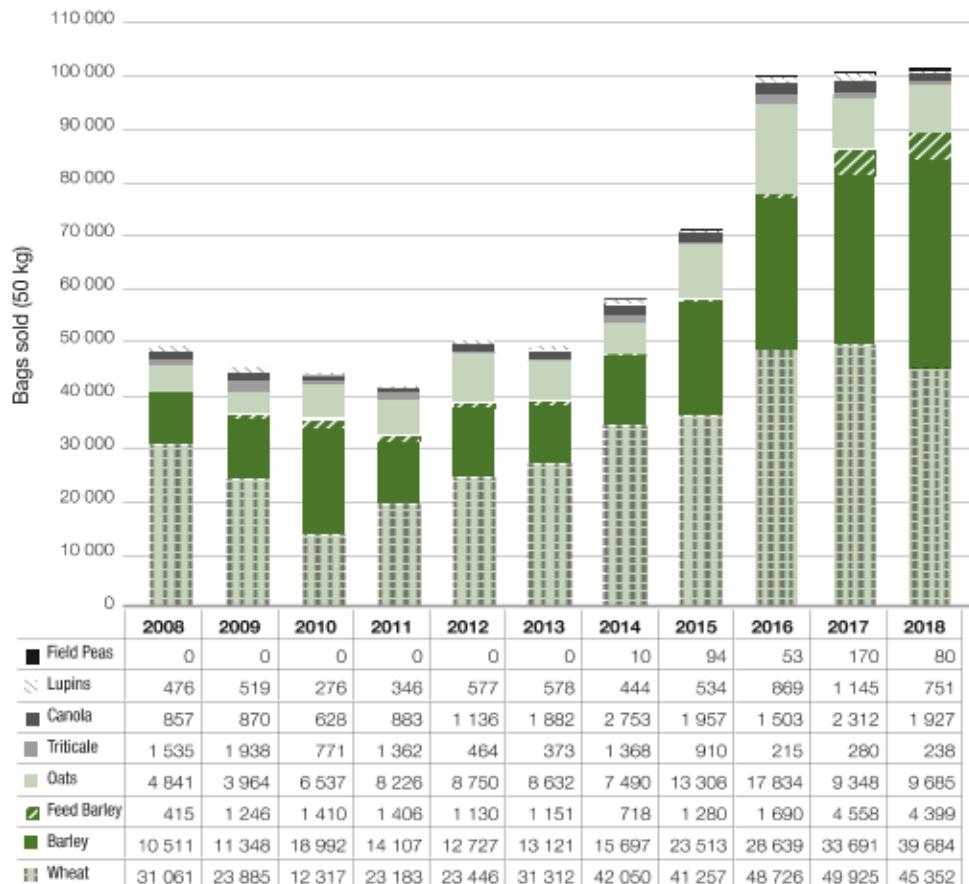

GRAIN INTAKE

Grain intake in SSK's silos (since 2015 Riversdale, Albertinia and Herold are included).

Grain yields were of such a magnitude that SSK's storage facilities were underutilised. Only Swellendam and Karringmelks River silos grain intake was close to its existing storage capacity.

SEED SEED SALES

SSK's seed sales are still going from strength to strength. Very competitive prices and good quality seed are ensuring strong customer support across a wide base. A significant part of the division's turnover is derived from outside of SSK's historic operating area.

FUTURE VIEW

The Bureau for Food and Agriculture Policy (BFAP) forecast for 2017 – 2026 is that the agricultural sector's unprecedented growth over the past two decades will not continue. BFAP predicts a consolidation phase that will thoroughly test the real level competitiveness and sustainability of the sector on the world stage.

SSK's Members experienced a difficult agricultural year due to the drought and weak commodity prices, both of which put negative pressure on their cash flow and debt positions. With all the political uncertainties facing South African agriculture, and more specifically the issue of land expropriation, it is certainly not an easy decision to invest meaningful capital in this sector. However, it is just as dangerous not to do so. The reality is that land ownership does not create prosperity. Wealth is only created if the land is used productively. The productive utilisation of land and government support to facilitate this, will contribute to food security, which in turn will help determine the future of our country.

Closer to home, SSK's membership numbers are increasing continuously. Management and Staff are well positioned to keep on serving these Members' needs. SSK is also well capitalised to invest in future opportunities. Further capital spending should be in line with the overarching strategy of SSK to keep our focus on the needs of our Members. Another core focus for SSK is our Members' debt levels that arose as a result of the drought conditions.

SSK's involvement in its twelve subsidiaries and associated companies is the result of a continued belief towards establishing business in the regional-based agricultural value-chain.

The competitive environment in which SSK is doing business requires ongoing renewal and expansion to meet our customers' and clients' needs. Good planning and the necessary risk management by our Members as they have done in the past, will be a prerequisite for the coming year to ensure success. The question is often asked, is there a future for commercial agriculture in our country? The answer is, YES! Food spending will always remain an important part of the economy. The market for agricultural products dominates consumer spending. Agriculture certainly will not disappear.

SSK's Board of Directors and Management are still convinced that the co-operative model is the most relevant business form to ensure long-term sustainability in agriculture.

SSK's Staff, Management and Board of Directors look forward with confidence to the coming year and acknowledge with great humility our dependence on our Heavenly Father.
